Summary Report on
"CYBER SECURITY AWARENESS"
On 6th April, 2022

Veerayatan Institute of Engineering organized "Cyber Security Awareness Seminar" on 6th April, 2022 to create consciousness about cyber security and cyber crime among students and faculty members. There were 100 student participants and 25 faculty participants who attended the seminar.

The program was started with welcoming speech by Dr.Jayvir Shah. It was followed by the welcome speech introducing perspicacious thoughts by H.K.ZALA, Cyber Crime Police Station, Border Range - Gujarat. Dr. Jayvir Shah introduced VIE and all the curricular & co-curricular activities carried out in the institute throughout the year for providing an extra edge to the caliber of the students. By enhancing their capabilities, building up their esteem and developing their skills, he mentioned how the younger students, involved with the social media that has become a trend of today's world relying on technology. In the effort to remain advanced in technology and connected can make them victims of cybercrime. He told that the seminar on cybercrime awareness was a mere small step to bring vigilance among students to remain safe and secure in the virtual world. For the valuable support in organization this seminar was organized by Prof. Punit Patel & Prof. Smit Thakkar.

Mr.H.K.ZALA, Cyber Crime Police Station, Border Range - Gujarat, was invited speaker for the Seminar.
The speaker has started his talk by raising the three questions:

1. Why should we aware of the cybercrimes?
2. What should we learn?
3. Who is the person addressing the issue?

Mr.H.K.ZALA has explained that every citizen is living in two worlds simultaneously. One is the "REAL" world and the other is the "VIRTUAL" world. While existing in the real world we take all security precautions possible to remain safe and secure. In addition we know all the rules, regulations and laws in existence in the field in which we operate. Despite all these actions and precautions taken by the citizens, mistakes occur and as a result incidents of crime (intentional or unintentional) take place.

On the contrary while existing or operating in the virtual world the average citizens (which is almost all) has a feeling that this is an "imaginary" world and their behavior is thus modulated. They feel as this world can't be seen, touched, felt, understood and perceived, so it does not exist in reality. As a result they take no self-security precautions while operating in this world and they even do not know the legal provisions (IT ACT) that govern the legitimate use of the cyber space and virtual world. This is

extremely risky behavior. The citizens of all types in this country need to be sensitized about the dangers involved in unregulated and insecure use of the cyber space and also need to be made aware regarding the safe and secure ways of using technology, gadgets and internet. This will ensure that the use of cyberspace and the virtual world is for the benefit of all and not in a manner which harms self and others.

The seminar on Cyber Security conducted at VIE included an Overview of Cybercrimes such as Electronic Commerce Crime, Economic Espionage, Infrastructure attacks, Defamation, Obscenity, Content Accountability, Copyright Violations, Trademark Violations, E commerce, Taxation, Provisions in the legal framework to combat Cybercrimes and finally discussed about Indian Cyber Law and provision of court proceeding for Cybercrimes and Cyber Law from India and International perspective. He has also shared interesting details of few registered cases of cybercrime happened and their investigation process of solving the same.

The seminar was ended with full of Information and vision of being safe and secure in the virtual world. As a token of appreciation, VIE awarded Mr.H.K.ZALA with a souvenir for putting his effort taken in the direction of stopping the cyber crimes. The seminar ended with vote of thanks by Dr.Jayvir Shah, Faculty of Mechanical Engineering Department.

Glimpses of the Cyber Security Awareness Seminar

An Inauguration

Welcome flower bouquet

Welcome Speech by Dr Jayvir Shah

Mr.H.K.ZALA presented with a memento by Prof. Smit Thakkar

Mr.H.K.ZALA during Seminar

Faculty & Student Participants in Seminar

Following staff members has worked for organizing CYBER SECURITY AWARENESS under the guidance of

Mr.ChintanVasani
Mr. Salat Prashant
Mr.Vinod Pingalsur
Mr. Karan Mehta
Miss. Hasti Ved
Mrs. Dimple Purohit

Supporting Heads: Prof. Punit Patel & Prof. Smit Thakkar.

Participants Involved in Seminar : Students & Faculty members of VEERAYATAN INSTITUTE OF ENGINEERING.
(Around 100 STUDENTS PARTICIPATED)
